TO WHOM IT MAY CONCERN:

The intent of this letter is to commend Fighting Chance Defense School for a job well done in their instruction of the Broadmoor security staff.

Ours being a low profile type of operation, Matthew Bayley tailored an open-handed unarmed defense class to address our specific needs. The content of this class was most professional in its presentation and accomplished our goals of reception and retention for all Officers in attendance.

I would not hesitate to once again request the services of Fighting Chance should the need arise.
