To Whom It Concerns

Mathew Bayley helped us in writing a grant to service 100 children identified as particularly "at risk." He conducted three all-morning sessions with the students at the Boys' Club and also gave a half-day seminar to our teaching staff of forty-seven.

In all of these outreaches we have been very impressed with the clear difference he makes with people. Mathew is highly skilled, very knowledgeable and has superb communication talents with both students and adults.

In summary, I am unequivocal that Mathew is a very positive change agent. His veritable impact on our most precious resource--our youth--is significant.

Sincerely,

James S. Barron, Ed.D.
